Subject: RE: EPA-HQ-2019-008930 CBD FOIA request re FQPA1 safety factor for pyrethroids or any Pharmacokinetic ("PBPK" or "PK") model developed for pyrethroids,

Hi Earl,

I think it would just be PRD, HED, and FEAD (communications branch).

For PRD, Kelly Sherman, Marianne Mannix, Tracy Perry, Avivah Jakob, Carolyn Schroeder, Yu-Ting Guilaran, Steven Snyderman

Kelly Sherman

Chief, Risk Management and Implementation Branch III (RMIB III)

Pesticide Re-Evaluation Division

Office of Pesticide Programs

Subject: EPA-HQ-2019-008930 CBD FOIA request re FQPA1 safety factor for pyrethroids or any Pharmacokinetic ("PBPK" or "PK") model developed for pyrethroids,

Kelly,

We have a recent FOIA request from The Center of Biological Diversity (CBD) for the following information:

From January 1, 2017 to the date EPA conducts this search, the records of communications mentioning or referencing the FQPA1 safety factor for pyrethroids or any Pharmacokinetic ("PBPK" or "PK") model developed for pyrethroids, including but not limited to, any mention of the FIFRA Scientific Advisory Panel or the External Peer Review prepared by Versar, Inc. to evaluate the aforementioned safety factor and model for pyrethroids between:

1. Employees of EPA's Office of Pesticide Programs ("OPP") and/or;
2. EPA employees Alexandra Dapolito Dunn, Nancy B. Beck, Charlotte Bertrand, Erik Baptist, Lek Kadeli, Arnold Layne, Andrew Wheeler, Henry Darwin, Ryan Jackson, Michael Molina, Helena Wooden-Aguilar, David Fischer, Kevin DeBell, Scott Pruitt; and/or
3. Employees of the Council for the Advancement of Pyrethroid Human Risk Assessment ("CAPHRA"); AMVAC; BASF; Bayer; Cheminova; DuPont; FMC Corporation; S.C. Johnson & Son, Inc; Sumitomo Chemical Co., Ltd; Syngenta; and Valent BioSciences Corporation.

Who would be able to provide the OPP staff that could have records, so we can have the IT Staff conduct an E-discovery search? If you can only provide PRD's staff, that would be good. Is there another Division besides HED that I would need to reach out to?

Thanks

Earl Ingram, Chief
